## Acting President's message

By Pat Hurton

I apologize for the lateness of this Pipeline. Charleen and I had a lot of things going on over the holidays and this past couple of months that delayed me getting my inputs to Karl.

I hope you all had a great holiday season and got to spend time with friends and family. The holidays are a great time for Charleen and me as we live close to both our sons, their children and our great grandchildren. Family is an important part of our lives and it's good to be able to get together easily.

For a significant amount of you it has been a rather harsh winter season. Record high snow falls and record low temperatures have been the norm rather than the exception. Although in California we didn't get the snow or record low temperatures, we suffer from lack of rain. San Francisco did not get any measurable rainfall in January. The first time in recorded history this has happened. The weather doesn't seem to have discriminated against any part of the country.

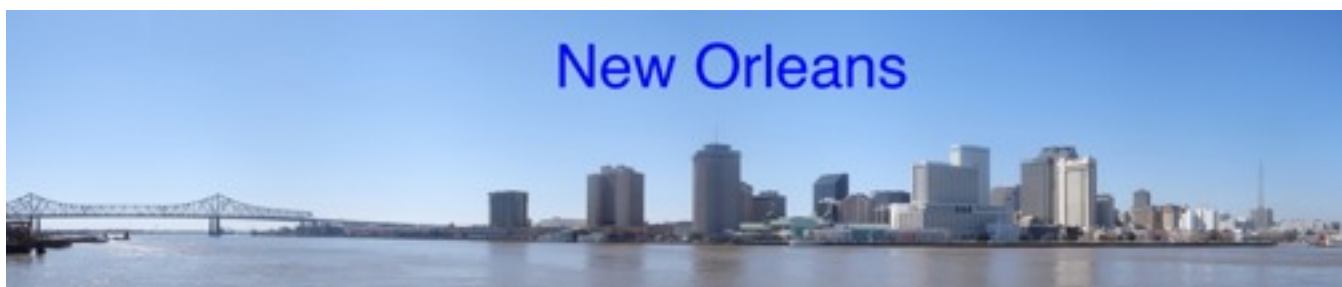

As most of you are aware we are holding our 2015 reunion in New Orleans. I have attached the agenda, hotel information and sign-up sheet for the reunion. We have been able to obtain a fantastic room rate for the Hyatt Place that is located about a 15-minute walk from the French Quarter. The other hotels we considered were considerably more expensive and were no closer to the French Quarter. The Hyatt Place is also closer to the Mississippi River and has a pleasant River Walk area. I think it is an excellent choice. Thanks to Norm Street and Tom Rawlinson for their efforts.

There are many interesting things to do and see in New Orleans. Prior to the next Pipeline the outgoing and incoming USS Caliente leadership will investigate and present ideas for tours, sightseeing etc. If any of you have any suggestions please send them to me.

On a more somber note we have had two of our World War II USS Caliente veterans pass away since our last Pipeline. Joe Benziger PHM2 1945-1946 and Jack Beatrice SK2 1943-1946. Joe passed away in December 2014 and Jack passed away in November 2014. Jack's wife June also passed away in July 2014. Joe was able to attend the reunion in Chicago and as noted on the USS Caliente website Joe was instrumental in the establishment of the USS Caliente Association. Our condolences go out to Joe's wife Jo and Jack's grandson Robert Alexander who informed us of Jack and June's passing. Both of these veterans deserve the highest praise for serving our country during what is hopefully the last World War.

Charleen and I look forward to seeing many of you in New Orleans and hope you all have a pleasant spring season.

## Editor's message

By Karl Seitz

Pat Hurton has explained elsewhere why there has been such a long period between issues of the Pipeline. That delay accounts, in large part, for the double-date assigned to this issue.

However, the double-date is also indicative of an on-going problem: The lack of contributions from readers. I would have been hardpressed to produce a Pipeline for December and another for March. As it is, this issue is largely composed of association business and obituaries. While important, these matters are only part of what most readers want from the Pipeline and what I want to give you.

The USS Caliente was in commission for 30 years, a period that included three major wars plus countless other important and, even if not important, interesting events. We still have members from that entire era. Some have pictures and other mementoes. All of us have memories of those shipboard days.

The Pipeline is the perfect place to share those connections to the history of the Caliente and the men who served on it.

If you have pictures your shipmates would enjoy seeing; scan them into electronic files and send them with additional details such as names, at least approximate dates and places to me at [seitzao53@gmail.com](mailto:seitzao53@gmail.com). If you don't know how to scan pictures or don't have the equipment to do it, there is probably a younger relative or friend who can do it for you. If you don't have access to scanning equipment or e-mail, pictures (copies preferred) can be sent to me at Karl Seitz, 1212 30th Street South, Birmingham, AL 35205-1910.

Depending on what the mementoes are, scans or photocopies of paper items or pictures of three-dimensional objects can be handled in the same way.

The least technical contributions are your memories. You write them (typed or handwritten) and then send them to me via e-mail or the U.S. Postal Service at the above addresses. Don't worry about absolutely correct grammar and spelling. As editor, I'm supposed to take care of those matters. Just write as though you were writing a letter or telling a story.

I don't want to give the impression that I am completely out of pictures and other items related to the history of the Caliente. Thanks to a few past contributors who have sent far more material than could possibly be used in one or two issues, I do have a few items on hand. However, these are items that were passed over in favor of the pictures, mementoes and stories that were published. They are not as good as or are too much like previously published items.

To be the best possible Pipeline, new perspectives and new topics are needed in its pages. Please help us reach that goal by contributing to future issues.

A reminder if you are on Facebook, Jack Hughes has created a Facebook group for former crew members of the USS Caliente (AO-53) and their families.

William F. Bayley (MM3, 1961-63) sends this two page-report on the Caliente's rescue of two British pilots.
